Aitor Sánchez Jiménez, Software Developer

SUMMARY

I am a developer with 9 months of experience in the IT sector, especially working with web application environments. I have acquired skills mainly in languages such as HTML, CSS, JavaScript, PHP and Java. In addition, also with different development frameworks for both web and mobile platforms, such as Flutter and React.

WORK EXPERIENCE

03/2025 Computer Technician, Ateneo de Santa Lucia, Gran Canaria, Spain

Soporte técnico integral, diagnosticando fallos de red y hardware, automatizando tareas repetitivas con PowerShell, helpdesk remoto con Rustdesk y desarrollo de proyectos de aplicaciones internas.

01/2025 - 03/2025 SQL Developer and Administrator, MRP-Koder, Krakow, Poland

Administration of SQL databases for ERP modules, optimising queries, automating processes with procedures and triggers, and collaborating in the integration of efficient solutions in Microsoft SQL Server.

03/2024 - 05/2024 Web Developer, Singular Factory, Gran Canaria, Spain

Development of an eSports web portal, creating graphical interfaces, statistics functionalities and quality testing, using HTML, CSS, JavaScript, Bootstrap and PostgreSQL.

03/2022 - 05/2022 Computer Technician, Instituto Tecnológico de Canarias, Gran Canaria, Spain

Technical support to employees, reducing incidents by 25% through advice and frequent troubleshooting, as well as dealing with various network problems and repairing damaged computers.
